

Premium Aged Care

BY ACTIVE HEALTHCARE

Our Story

Active Healthcare is here to help you provide unparalleled retirement living to meet the present and future needs of your residents.

This Aged Care Guide showcases our commitment to our mission of caring about people being active. Helping you is an integral part of our “why” – and a family legacy, passed down for three generations.

Selwyn James Bishop founded Active Rehabilitation Equipment in 1990 out of a small cottage in Princes St, and is now led by his son Nick Bishop and grandsons Mark and Edward Bishop. The family has discovered a specialty in premium product solutions, where innovation meets tradition and legacy.

Understanding what matters most to people for over 33 years means the

family have fine-tuned a selection of the very best in patient transfer, pressure care, hygiene and bedroom furniture. Only selecting the very best products for quality, innovation and wellbeing outcomes.

Active Healthcare care's about people being active, and is committed to providing solutions that will move you.

Enjoy life, keep active
Bishop Family

More than great products, we deliver full service, customisation, education and on-going support.

Sustainability Focus

We only work with sustainable brand partners in order to reduce environmental impacts.

Premium Products

At Active Healthcare we believe that you should have access to the best because we genuinely care about you and your clients being safe, healthy and active.

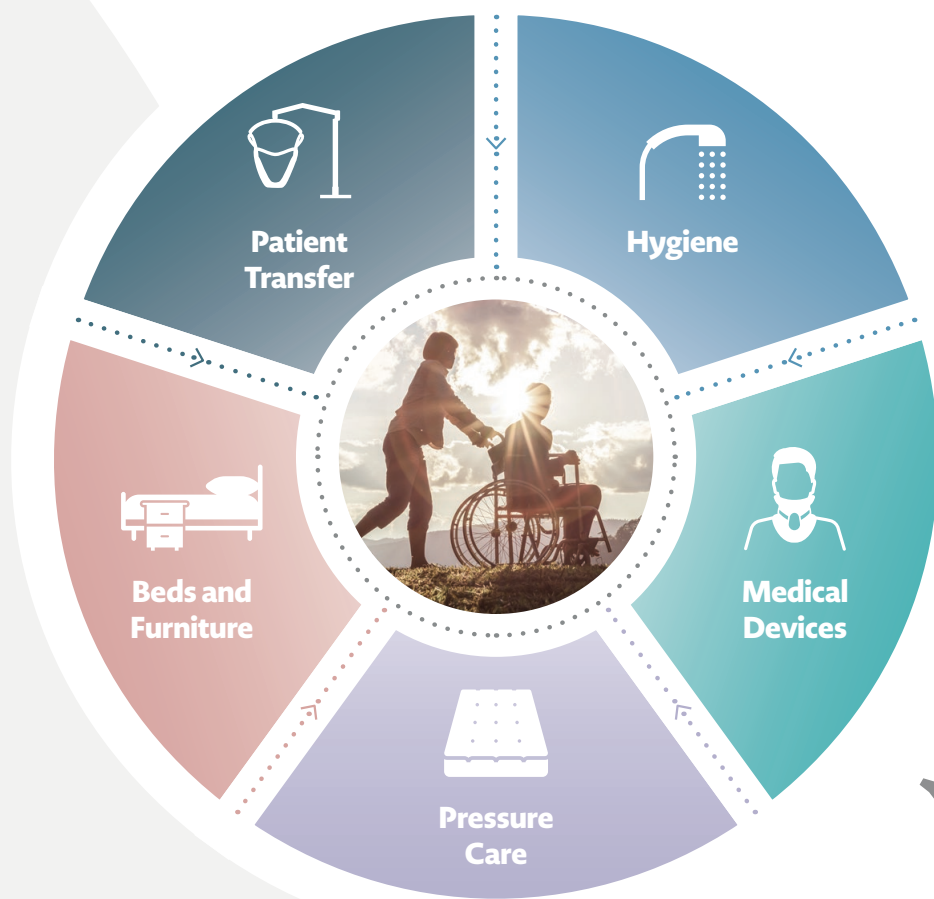

Award Winning Solutions

Active Healthcare exclusively selects premium solutions, we are dedicated to supplying the highest quality products from well-respected brands.

Exceptional Service

For the lifetime of the product you can contact us for support. We ensure large equipment is delivered by our team and set up safely, used correctly for your client so you're confident with it.

Care Wheel

Our Care Wheel model helps us keep people at the centre of everything we do by focusing on equitable health outcomes.

Signature Care Beds

Introducing our range of premium care beds and bedside tables – all equipped with a comprehensive range of features that adapt to suit every care environment. We are proud to partner with Stiegmeyer to bring the very best modern care bed available – the Elvido. Choose from various head and footboards with numerous finishes for a care bed that suits any room design perfectly.

Our beds' technical features and high-quality as well as stable designs offer you consistency and planning security.

Elvido Care Bed

The Elvido has been designed to promote freedom, good health and long-term independence of residents. Safety and comfort are paramount and met equally with the feel of European luxury.

See more info on the following page.

Basano Ultra Low Care Bed

Stay safely and comfortably close to the floor.

See more info on page 5.

Stiegmeyer beautifully designed bedside cabinets compliment low-height beds such as the Elvido.

Elvido Care Bed Series

The Elvido care bed series strives with every detail to relieve the burden on the nursing staff and improve the quality of life for the residents. The focus is on digital innovations such as the new out-of-bed systems and a modular design that transforms every single bed into a tailor-made dream bed. The Elvido range of fully electric low-height beds promotes protection, mobilisation and comfort, without restricting freedom.

Features & Benefits

- **VARIO SAFE** - The best system for adjustable care beds. The Vario Safe system is the ideal option if you want to equip your Elvido bed with split safety sides or side panels.
- With Vario Safe, all the bed surround elements can be removed and replaced without the use of tools. This is made possible by patented fasteners.
- **RELIEF** - Nursing staff are supported with intuitive operation, easy mobility and an ergonomic working height.
- **OUT-OF-BED** - Two variants to choose from for quick support of residents who are at risk of falling. The fixed system OOB Smart and the mobile system OOB Flex.
- **EASY CLICK** - The new generation of the Elvido series comes with the intelligent Easy-Click system as standard. The bars can be "clicked" onto pre-assembled brackets without tools. This makes it easier to set up and clean the bed.
- Combinable divided safety sides for unhindered entry and exit selectable
- Standard manual switch with lighting at night
- Digitization with simple operation and high benefit
- Safe working load of at least 225kg

Low-height bed

Specifications

External Dimensions approx.	100.3 x 211cm
Mattress base (mattress dimensions)	90 x 200cm or 100 x 200cm
Mattress base division (back/seat/thigh/lower leg) approx.	85 / 15 / 40 / 60cm
Backrest length compensation approx.	10cm
Safe working load	225kg

Also available with a night time handset

Basano Ultra Low Care Bed

The ultra-low Basano bed allows residents to stay safely and comfortably close to the floor and the caregiver the full support of a modern care bed. With the intelligent Easy-Click system, the side rails can be “clicked” onto pre-assembled brackets without tools and removed again at any time. This makes it easier to set up and clean the bed. The LCD handset controls the bed with just 3 buttons and offers customized operating levels for caregivers, residents and technical staff.

Features & Benefits

- Height adjustment range: approx. 15-80 cm
- High safe working load of 225kg
- All functions can be controlled with a handset
- Choice of full-length and combined safety side rails
- Both safety sides with Easy Click system requiring no tools for fitting
- Simple castor braking in pairs with easily accessible brake pedals
- Integrated bed extension for tall residents
- Homelike appearance thanks to attractive headboards and footboards and wood decors

Specifications

External Dimensions approx.	101.6 x 236.5cm
External dimensions with extended bed extension approx.	101.6 x 254.5cm
Mattress base (mattress dimensions)	87 x 200cm
Mattress base division (back/seat/thigh/lower leg) approx.	72 / 25 / 33 / 54cm
Backrest length compensation approx.	8cm
Safe working load	225kg
Ground clearance	15cm
Total weight approx.	130kg

Available in a range of finishes.

FL250 Floorline Bed

With it's impressive low height of 110mm, injury to the resident can be significantly reduced or avoided in the event of a fall from the FL250 Floorline bed, therefore reducing the need for side-rails.

We can customise as required to incorporate your choice of material, colour, finish, size or shape and match any interior design specifications

Features & Benefits

- Under Bed Clearance – While the FL250 achieves a low height of 110mm, full clearance under the bed is still maintained, minimising the risk of foot or cord impingement.
- SmartDescent™ Automatically slows descent speed over the final 300mm of lowering to the floor level, allowing possible impingements to be identified and moved.
- Hidden Bed Mechanisms: The bed mechanisms are attached under the platform and are not visible. This helps the room feel less clinical.
- Low Height 11cm: Adding a 15cm mattress gives you a total height below 30cm thus significantly reducing out-of-bed fall injury risks.
- Auto-Regression on back & knee rests: Reduces skin shear forces during operation thus improving clinical outcomes and reducing the need for expensive mattress solutions.
- High SWL 250kg & base-extension to 100 & 200mm: The same bed platform can meet a wider profile of residents.
- BrakeFirst™ Automatic Safety Brake Activation at lowest height: Reduces the risk of injury during bed exit in the morning as the bed will lock when at its lowest height.
- Single Button Seat Position: Easy transfer of weight from lower back to bottom for pressure-care and seated positioning also helps improves lung function for resident.
- ExitSafe™ Single Button Ingress/Exit height: Your staff don't have to think about what height to set the bed. Via one button the vast majority of needs are met.
- Attendant Control Panel – Allows the caregiver to lock out certain functions and also ensures bed operation is not just restricted to the handset.

- Grey Colour Scheme & Narrow-profile frame.
- Underbed light standard.
- Rubber & Nylon castors.
- King Single Extension Kit.
- The FL250 Bed incorporates a sophisticated range of finishing options.

Specifications

	Single	King Single
Total length	200cm	200cm
Total Width	90cm	107cm
Safe Working Load	250kg	250kg
Electric Leg	False	False
